Property Manager

Re: Recycling and Yard Waste Collection

Patriot Disposal prides itself on providing the best trash and recycling service in the Northern Virginia area. We are able to do this with a solid dependable work force that takes pride in doing the job right.

As you are likely aware, in the current strong economy, it is getting more and more difficult to find and keep good employees. Many of our competitors are having so much difficulty that they are unable to complete their routes on the scheduled day and are even having to collect on Sundays. We have never missed a day of collection except for inclement weather and plan to continue providing services when our customers expect them.

To continue to provide the kind of service we've been known for, we need to be proactive in our effort to make our routes more efficient and protect our valuable resources...our people. Currently with twice a week service in most areas we collect on either Monday and Thursday or Tuesday and Friday. This leaves us with a lot of work on these days and very little work on Wednesdays. This is very inefficient and makes for long days for our crews and impacts our ability to retain them.

Effective the week of **May 13th** we will begin collecting Recycling and Yard Waste in your community on Wednesdays. We understand that this may not be as convenient as the same day service you have received in the past, but it is necessary for the reasons provided above.

We look forward to continuing to provide you with the quality service you have come to expect and appreciate your business.

Sincerely,

John Poague
President
